

UDI U818A Propeller Replacement

This is a replacement guide for the propellers of the UDI U818A .

Written By: Anthony Mitchell

INTRODUCTION

In this procedure we must take care to put the correct blades on the correct motor, because white propellers bend in one direction while black propellers are opposite.

TOOLS:

- [Phillips #000 Screwdriver](#) (1)
-

Step 1 — Propellers

- Using #PH000 screwdriver remove the 5mm screw retaining the propeller to the rotating post; there is one for each propeller.
- You can now safely pull the propeller away from its apparatus.

To reassemble your device, follow these instructions in reverse order.
